211 PARTNERSHIPS CONTINUE

PG&E Power Safety

Together, Building
a Better California

The partnership between PG&E and 211 in Santa Cruz County focuses on supporting residents, particularly during disasters. This collaboration ensures that individuals with medical needs are prioritized for essential services, such as backup power through PG&E’s Medical Baseline program.

By contacting 211, residents can access information and referrals to disaster preparedness resources, as well as assistance with medical energy needs.

In 2024, **a total of 58 individuals were screened for all hazards, while more than 2,450 callers were screened for Public Safety Power Shutoff (PSPS) events.** Additionally, during one PSPS event, assistance was provided to 24 PG&E clients in connecting to the necessary resources.

Tobacco Cessation

We partner with The University of California, San Diego – Kick It CA. They have free services for smokers/vapers that can be helpful. If the callers enroll and complete a telephone counseling call with them, they will receive a \$20 gift card. **This year we referred 108 clients to Kick It CA.**

SUCCESS STORY

During one of our follow-up calls, a client shared that she was on the brink of giving up. Since graduating from her rehab program, she's been living in a tent, surrounded by people who are actively using, and one of her close friends had even been hospitalized. In the midst of this overwhelming chaos, she thanked us for reaching out. She said that our call, along with the extra support we provided, gave her the strength and hope to keep pushing forward and stay sober. In that moment, it was clear just how vital our outreach is—not just as a service, but as a lifeline for those who feel like they're about to lose everything.
